SPORTY LEARNERS OF LEOPOLD-SONNEMANN SCHOOL SUPPORT SUNI E.V.!

Every other year, the 5th and 6th grade learners of Leopold-Sonnemann-Realschule in Höchberg (near Würzburg in Germany) take part in a sponsorship run. Prior to the run, every learner looked for sponsors from their families, friends and neighbourhood, who would support the runner with a certain amount of money for each lap. The runners earned the considerable amount of 5.500€. Half of it was donated to Suni e.V. A cordial thanks to all the diligent little runners and to our colleague Yvonne, who works as a teacher at this school and put herself out for donating half of the money gained to Suni e.V.!

READING SUPPORT LESSONS AT OTJIVERO PRIMARY SCHOOL

Anne Grieser and Lukas Green were volunteering in Namibia from mid-February until mid-April. At Otjivero Primary School they taught English and Social Studies for the grades five till seven. In the afternoons they offered a special reading support class for learners, who have reading difficulties. If you are curious and want to know more about Anne's and Lukas's work, check out their report on www.suni-ev.de.
